**NEW QUESTION: 2** A System Administrator wants to configure the Automated Service and Support Request feature. Where can settings for this be configured?  
**A.** On Local Management Interface, only after initial appliance setup is complete  
**B.** On SiteProtector only  
**C.** Command Line Interface only  
**D.** On Local Management Interface, only during initial appliance setup  
**Answer: A**  
**Explanation:** You can configure the IBM Security Network Protection appliance to automatically open a Service and Support Request in the IBM Customer Support system when serious errors occur. Use the Service and Support page to enable this feature. You must use the local management interface to set up the automated Service and Support Request feature. This configuration is not currently supported in the SiteProtector System or the command line interface.
