We have exclusive information resource and skilled education experts so that we release high quality EAPA\_2025 bootcamp PDF materials with high passing rate.

**NEW QUESTION:** 1Your network consists of an Active Directory domain and 100 computers that run Windows 7.The domain contains a logon script named logon.cmd.You plan to deploy a new application named appl.msi by using the logon script. Appl.msi is stored in \\server1\share1.You need to modify the logon script to deploy the application.What should you include in the logon script?**A.** Msinfo32.exe \\server1\share1\appl.msi**B.** Pkgmgr.exe /ip /m:\\server1\share1\appl.msi**C.** Msiexec.exe /i \\server1\share1\appl.msi /quiet**D.** Sbdinst.exe -u \\server1\share1\appl.msi -q**Answer: C****Explanation:**Msiexec Provides the means to install, modify, and perform operations on Windows Installer from the command line.To install or configure a product Syntax msiexec /i {package|ProductCode} /i : Installs or configures a product.NOT Msinfo32 Displays a comprehensive view of your hardware, system components, and software environment.

**NEW QUESTION: 2** The following is NOT a security characteristic we need to consider while choosing a biometric identification systems:  
**A.** speed and user interface  
**B.** data acquisition process  
**C.** cost  
**D.** enrollment process  
**Answer: C**  
**Explanation:** Cost is a factor when considering Biometrics but it is not a security characteristic. All the other answers are incorrect because they are security characteristics related to Biometrics. data acquisition process can cause a security concern because if the process is not fast and efficient it can discourage individuals from using the process. enrollment process can cause a security concern because the enrollment process has to be quick and efficient. This process captures data for authentication. speed and user interface can cause a security concern because this also impacts the users acceptance rate of biometrics. If they are not comfortable with the interface and speed they might sabotage the devices or otherwise attempt to circumvent them.

**NEW QUESTION: 3** Your customer service team often receives support calls for the same issue from multiple customers. You decide to use the parent-child hierarchy feature so that cases can be related, but the cases must continue to be resolved independently. You need to configure the parent and child case settings for your organization. What should you do?  
**A.** Ensure that the cascade closure preference is not set.  
**B.** Include the resolve by attribute in the inherited attributes.  
**C.** Choose Don't allow parent case closure until all child cases are closed.  
**D.** Choose Close all child cases when parent case is closed.  
**Answer: C**  
**Explanation:**
