**NEW QUESTION: 2**

The court's acceptance, rejection, or relative weight accorded to various valuation approaches and methods generally revolves around some factors. Which of the following are NOT out of those factors?

A. The type of company

B. The quality of available evidence relevant to the respective methods

C. The subject company's industry norms

D. The prospects for liquidation or continued operations

**Answer: C**

**NEW QUESTION: 3**

A corporation has received proposals from several banks to establish a lockbox system to speed up receipts. The corporation receives an average of 700 checks per day averaging US \$1,800 each, and its cost of short-term funds is 7% per year. Assuming that all proposals will produce equivalent processing results and using a 360-day year, which one of the following proposals is optimal for the corporation?

A. A flat fee of US \$125,000 per year.

B. A US \$0.50 fee per check.

C. A compensating balance of US \$1,750,000.

D. A fee of 0.03% of the amount collected.

**Answer: C**

Explanation:

Multiplying 700 checks by 360 days results in a total of US \$252,000 checks per year. Accordingly, at a US \$0.50 fee per check, total annual cost is US \$126,000 ( $\$.50 \times \$252,000$ ), which is less desirable than the US \$125,000 flat fee. Given that the annual collections equal US \$453,600,000 ( $\$1,800 \times 700 \times 360$ ), a fee of 0.03% of the amount collected is also less desirable because the annual fee would be US \$136,080 ( $.03\% \times \$453,600,000$ ). The B option is therefore to maintain a compensating balance of US \$1,750,000 when the cost of funds is 7%, resulting in a total cost of US \$122,500 ( $.07 \times \$1,750,000$ ).

**NEW QUESTION: 4**

A customer wants to be able to automatically failover their Power System nodes that are running AIX in the event of a disaster. The customer will place the servers in two data

centers that are in different geographies

Which IBM product will satisfy the customer's requirement?

- A. Geographic Logical Volume Manager
- B. General Parallel File System (GPFS)
- C. IBM Metro Mirror
- D. Power HA System Mirror for AIX Enterprise Edition

**Answer: B**

Explanation:
