Explanation:

Explanation

If your instance is ebs-backed, then you will not lose ebs root volume storage if you launched it with the "delete-on-termination" set to false. See the ec2-run-instances command for more information. Other ephemeral volumes will be lost when the instance is stopped/terminated.

If it is not ebs-backed, you will lose the root data when you terminate the instance (you cannot "stop" instance store instances).
