Which of the following is an example of SaaS?
A. Offshore help desk support
B. Hosted network hardware
C. Hosted email software
D. Hosted database software and development tools

Answer: C

Explanation: Explanation/Reference: Explanation: If you've used a web-based email service such as Outlook, Hotmail, or Yahoo! Mail, then you've already used a form of SaaS. With these services, you log into your account over the Internet, often from a web browser. The email software is located on the service provider's network, and your messages are stored there as well. You can access your email and stored messages from a web browser on any computer or Internet-connected device.
